# GALA

Utilization: Fresh market & Gourmet style

Maturity: Medium Early

- Tubers are brilliant yellow flesh.
- Skin finish is bright yellow with obscure lenticels.
- Dormancy is very good.
- Shape is round and very uniform.
- Yield potential for baby sized potatoes is very high.
- Resists:
  - Mechanical Damage and Internal Bruising.
  - Wart, Erwinia, PVY, and PVA
  - Nematodes RO1 and RO4
  - Hollow heart,
  - Second Growth and Growth Cracks.
- \* Medium resistance to Common Scab.

Gala remains firm following cooking and does not present after cooking discolouration. Taste is regarded as excellent and combined with a brilliant yellow cooked flesh colour, these uniformly sized potatoes will potentially be the variety for baby potato production in the United States of America.
