MERLIN

POTATOES for PEOPLE™

MERLIN

Utilization: Fresh Market

Maturity: Early main Crop

- Tubers: round-oval size with uniform shape
- Stunningly bright skin finish with a high contrast scarlet eye pigmentation.
- Excellent multi-purpose culinary qualities; bright white smooth textured flesh; no after cooking discolouration.
- Medium-to-long term storability.
- Resists:
 - Heat and drought stress.
 - Good resistance to Black leg and PCN
 - Medium to high resistance to common scab
 - Medium resistance to PVY, PLRV and late blight.

Round white table potato markets have been in serious decline due to consumer confusion resulting from round white variety substitution where Kennebec = Superior = Snowden.

Merlin offers packers and retailers an opportunity to connect with consumers by featuring an easily recognizable white fleshed variety with outstanding culinary characteristics.
